Choose the width and the height of the board, K refers to the number of blocks that marks in a horizontal, vertical, or diagonal row to win the game.

Then click "Add AI" to choose the AI(.class) from the directory of your computer.

After adding the Als to the list, choose "Player 1 Al" and "Player 2 Al". Then choose Al from the list for each player and click "New Game".

Then AI players will play the game until one of them won the game.
